SUMMARY

Software Engineering undergraduate with hands-on experience in full-stack web development, backend systems, and database-driven applications. Skilled in Java, JavaScript, React, Node.js, MySQL, MongoDB, and RESTful API development. Experienced in building scalable web applications through academic and real-world projects, with strong problem-solving, teamwork, and software engineering fundamentals.

EDUCATION

B.Sc.(Hons) Information Technology Specializing in Software Engineering

Jun 2023 - Present

Sri Lankan Institute of Technology (SLIIT) - Year 4, Semester 1

GPA : 3.30

- Focus areas: Data Structures and Algorithms, Object-Oriented Programming, Software Architecture, Secure Software Development, Database Management, Operating Systems, Agile Methodologies, Web Technologies, Project Management, Deep Learning.

B.Sc. Industrial Statistics and Financial Mathematics (Concurrent)

May 2024 - Present

University of Colombo - Year 3, Semester 1

GPA : 3.30

- Focus Areas: Probability, Statistical Inference & Modeling, Statistical Computing with Python, Advanced Programming Techniques, Operational Research, Regression Analysis, Design and Analysis of Industrial Experiments, Statistical Packages (SPSS), Applied Non-Parametric Methods, Basic Statistical Inference

SKILLS

TECHNICAL SKILLS

Programming Languages- Java (Advanced), C++(Advanced), JavaScript (Advanced), Python (Advanced), C (Advanced), R (Advanced), PHP (Advanced), TypeScript (Advanced), C#

Web Development- React.js, Node.js, HTML5, CSS3, JavaScript, TypeScript, Express.js, JSP, Servlets

Mobile Development- React-Native, Android Studio, XML Layout, Kotlin

Backend & Databases- MongoDB, MySQL, ORDMS

Tools & Platforms- Git, GitHub, VS Code, IntelliJ IDEA, Postman, Canva, Figma, JIIRA, Trello

Other Skills- REST APIs, Form Validation, JSON Handling, Data Backup, UI/UX Design Principles

SOFT SKILLS

- Teamwork
- Time Management
- Communication
- Problem Solving
- Fast Learning
- Critical Thinking

PROJECTS

MediShare – Medicine Redistribution Platform

Java, Spring Boot, Spring Data JPA, Spring Security (JWT), Hibernate, MySQL, React, Maven, Git

- Owned the Facility Registration & Profile Management module end-to-end on a platform connecting hospitals, clinics, pharmacies and NGOs to redistribute surplus and near-expiry medicine.
- Built REST APIs in Spring Boot on a layered Controller–Service–Repository architecture, using Spring Data JPA Specifications for dynamic multi-criteria search and filtering.

HealthLink – Smart Healthcare Platform (Web Application) - Role: Team Leader

MongoDB, Express.js, React.js, Node.js, Python (ML API), JWT, REST APIs, Git, GitHub, Agile Development.

- Developed a healthcare management system for a real-world client using the MERN stack. Built backend APIs for patient management, appointment scheduling, and doctor record handling. Integrated a machine learning-based doctor recommendation feature and implemented form validation, authentication, and database operations using MongoDB.

Event Management System (Web Application) - Role: Team Leader

PHP, MySQL, HTML, CSS, JavaScript

- Developed a web-based event management system to handle event creation, and schedule management. Implemented user authentication, event CRUD operations, and admin dashboard for managing events and attendees. Focused on backend logic, database integration, and structured data management for efficient event coordination.

UniFind – Campus Lost & Found Management System

Node.js, Express.js, MongoDB Atlas, Mongoose, JWT, bcrypt, React 18, Vite, Recharts, GitHub Actions

- Moderated lost-and-found platform for the University of Colombo, replacing scattered social media posts and notice boards with a single verified, auditable system.
- Set up the repository, Git Flow branching, GitHub Actions CI for automated builds and lint checks, and branch protection with mandatory PR review; built the shared component library and design system used across the app.

Personal Finance Tracker Mobile App

Kotlin, Android Studio, XML, SharedPreferences

- Developed a mobile application for tracking income, expenses, budget limits, and category-wise spending with persistent local storage. Implemented export/import functionality using JSON and used fragment-based architecture with bottom navigation for a clean user experience.

Routify - Cycling Web App - Role: Team Leader

MongoDB, Express.js, React.js, Node.js, REST APIs, JWT, Git, GitHub, Agile Development

- Developed a full-stack cycling platform to support route sharing, ride tracking, and community engagement among cyclists. Implemented user authentication, interactive UI, and dynamic data handling for routes and user activities. Focused on responsive design, scalable backend APIs, and real-time user experience improvements.

Online Computer Spare Parts Management System - Group Project

Java Servlets & JSP, Apache Tomcat, MySQL, XAMPP, Eclipse IDE

- Developed a web-based system for managing computer spare parts inventory, orders, and stock updates with secure admin and user roles. Implemented product listing, order processing, and database integration for real-time data management and consistency.

ARCHIEVEMENTS

Dean's List – Year 1 Semester 1, SLIIT, 2023

Dean's List – Year 1 Semester 2, SLIIT, 2024

Dean's List – Year 2 Semester 1, SLIIT, 2024

EXPERIENCE

Graphic Designer – National B2C Team

Feb 2026 - Present

AIESEC in Sri Lanka

- Led business-to-business (B2B) initiatives, analyzing market trends and client data to optimize outreach strategies and partnership engagement.
- Designed proposals and marketing campaigns using Canva and Figma, creating visually appealing and effective client presentations.

Marketing Organizing Committee Vice President (OCVP) – SHEvolve '26

Jan 2026 - May 2026

AIESEC in Colombo Central

- Led the marketing function for SHEvolve '26, overseeing promotional strategies, campaign planning, and content creation for event outreach. Coordinated with sub-teams to ensure consistent branding across digital platforms and drove engagement through targeted marketing initiatives.

Business to Customer Specialist – Outgoing Global Volunteer

Jan 2026 - Present

AIESEC in Colombo Central

- Promoted global volunteer programs through targeted digital campaigns, achieving 100+ sign-ups per month. Managed and supported team leaders and members to ensure performance targets and campaign success through structured coordination and engagement strategies.

Business to Business and Analytics Lead – Outgoing Global Talent Business to Customer

Feb 2024 - Dec 2024

AIESEC in Colombo Central

- Led business-to-business (B2B) initiatives, analyzing market trends and client data to optimize outreach strategies and partnership engagement.
- Designed proposals and marketing campaigns using Canva and Figma, creating visually appealing and effective client presentations.

Video Editor - Showcasing Team

Feb 2024 - Dec 2024

AIESEC in Colombo Central

- Produced and edited promotional videos using tools like CapCut and Canva to showcase exchange programs and volunteer activities.
- Collaborated with the showcasing team to capture event highlights and craft engaging visual content for social media and internal campaigns
